

EVENT CALENDAR

22nd international **BUSINESS FAIR**

Mostar, 9.-13. 4. 2019.

Entertainment program and conference

Tuesday 09.04.2019.

- 11:00 –18:00 SWEET CORNER: Promotion of the BH pastry chefs**
(Pavilion 1)
- 11:00-18:00 The performance of Ericsson Nikola Tesla at the Mostar Fair 2019.**
Ericsson Nikola Tesla, the regional leader in the creation of global trends based on the latest technologies and an associate member of Ericsson Corporation, this year presents an innovative model of a smart city with several cases from the real cases implemented. In order to vividly demonstrate the potential solutions for the rapidly growing challenges in the organization of urban environments, the team of experts has teamed on a single horizontal IoT platform a number of functional systems that can detect different events and forward them to appropriate public services, and thereby improving people's lives and creating value for society in general. Taking into account modern approach to the entertainment and the way that expanded reality enables a new level of consumer video gaming, Ericsson Nikola Tesla, by using recent technology, offers visitors the opportunity to acquire their own comprehensive experience in a role of a Jedi Knights. The wireless solution in which the data is exchanged with low latency and high permeability is an attractive way of showing how the 5G opens up huge opportunities for industrial and consumer scenarios in a number of different areas.
